DNC 60 G

The DNC 60 G numerical control is intended specifically for sheet-metal cutting.

The DNC 60 G is a competitively-priced product in a robust panel-design construction. It is a high integration of functions fitted out with a vivid high-contrast monochrome screen and a simplified keyboard with large keys.

Its software guides the operator with permanent online help and many automatic functions.
The DNC 60 G is simple as a Position Controller.

DNC 60 G

Easy Operating

- Comfortable
  - Large, vivid and high-contrast screen
  - Clear display of all the information the operator needs
  - Rapid data input thanks to the ergonomic keyboard with large keys
- User-friendly
  - Complete programming of a part from a single page
  - Intuitive and quick set up of the machine thanks to the *Easy Cut* page
  - Contextual help and warning pop-up
  - Simple pages

Better Cutting

- Can be linked to an Optimisation Cutting Program via RS232. The parts layout are shown on the PC in graphic mode and each cut is displayed in real time as the cutting dimensions are sent to the DNC
- Automatic calculations of the shear functions upon material specifications
- Complicated cutting sequences (programs) can be memorized

Powerful

- Extended functions available e.g.
  - Automatic blade gap
  - Automatic cutting angle
  - Automatic cutting length
  - Automatic backgauge correction
  - Automatic backgauge foldaway
- Easy communication
  - Connection to your PC / notebook via RS 232 for comfortable software updating and data back-up
  - Back-up software included
- Over 10 languages available
